All the rich sections from the San Francisco Chronicle — Bay Area, 96 Hours, Sporting Green, Datebook and more — just waiting to be discovered.

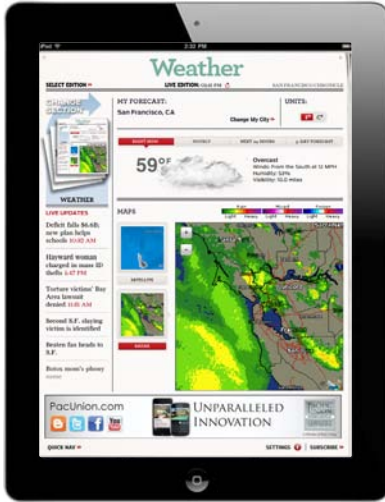

## Big, gorgeous photos

Your iPad is a beautiful way to enjoy photos. Luckily we've been capturing award-winning photography from across the Bay Area for nearly 150 years. The photos from our print edition — along with our photo galleries from SFGate.com — all spring to life on the iPad's beautiful display. And when you see a photo you like, sharing with all your friends through Twitter, Facebook and email is just a tap away.

## Incredible 360-degree panoramas

Here are The Chronicle's photos as you've never seen them before. With our 360-degree panoramas, you're literally in the middle of it all. From center field at AT&T Park to the San Francisco Botanical Garden, just tap on panoramas and use your finger to glide left and right, up and down, 360 degrees. It's a whole new perspective on your world.
